

January 18, 2026: And Now Sign 41 - Take is Gone as Well

Just continuing to document that the American government as being run by Donald Trump is stealing from me and destroying my work.

This is the wonderful experience that I received after filing lawsuits to defend the rights of the American public.

The government is being run by a 'secret' society of Freemason criminals.

The Freemasons are carrying out a slow-motion, multi-generational, genocide where they are stealing our resources using a secret evil claim to power: child-sex, adultery, and prostitution.

Jeffrey Epstein and Donald Trump are 'Same Men' chasing the 'Same Girls'. It's the whole group of them. They are - literally - disgusting trash-filth losers.

Eat my dick, Donald Trump - you are lousy piece of shit burden on the entire world and it is time for you to TAKE your spy tools out of my home and life before you destroy yourself (and your team) even further.

(YOU TOO, ELON. GET THE FUCK OUT OF MY LIFE NOW YOU STALKING BITCHES)
